HiQ is Scandinavia's leading provider of High Quality Software Consultancy Services to clients within communications, business critical systems and simulation. The company has around 1,200 employees in Sweden, Denmark, Finland and Russia. HiQ is an agile company.

Industry Sponsors

With roots in providing application development services to clients since 1974, CIBER, (NYSE: CBR) is a proud sponsor of the Stockholm Scrum Gathering, and an avid supporter of the Agile movement. Now a \$1 billion company with 8,000 employees in 92 offices worldwide (including 60 U.S. offices), CIBER continues to collaborate with clients to design, build, integrate, and support IT solutions that drive results and provide enduring value. Our services support the entire IT lifecycle and include Custom Application Development, ERP Implementation, Project Management, Systems Integration, and Application Outsourcing. Learn more at www.ciber.com or 800-242-3799.

Citerus is a consulting company that specializes in helping clients succeed with their software development projects. Since 1996, we have developed software, led projects, refined engineering practices and improved management methodologies for companies from a diverse set of trades. We gain break-through results by raising the quality bar, putting people first and reducing bureaucracy.

microTOOL GmbH is a leading provider in the field of software development and IT project management. microTOOL was founded in Berlin in 1984. Over 1,400 organizations across Europe use our tools, a total of more than 22,000 individual users. Our customers come from various fields and different sized organizations, but they share one thing: good software is essential for their products and services. in-Step Scrum Edition is a tool for everyone in the project. It's created for multi-user organizations working on a LAN and the Internet. It offers a virtual project space, with all project-related information – for simple communication and cooperation in your agile projects.

VersionOne is recognized by Agile practitioners as the leader in Agile project management tools. Today more than 10,000 teams and 70,000 users in 50 countries use VersionOne's Agile project management tools to streamline and standardize their Agile development efforts. Since 2002, companies such as Adobe, Siemens, Sabre, Disney, IBM, Lockheed Martin, Sony, 3M and Business Objects have turned to VersionOne. Whether you're a small team getting started with Agile development or a multi-team, global enterprise, with VersionOne you'll get the best tools in the industry backed by pioneers in Agile project planning and management.

Start small. Scale smart. See for yourself at www.versionone.com.

Trade Sponsors

Software Quality Engineering hosts four of the industry's most recognized software quality conferences including the STAR conference series, Better Software Conference & EXPO, and Agile Development Practices. From the classroom to the Web, Software Quality Engineering delivers software testing and development seminars, and provides consulting services, specialized publications, and research. <http://www.sqe.com/>

The Agile Development Practices conference has what you need whether you're investigating or implementing agile development practices. Learn the latest in agile methods, technologies, tools, and leadership principles from thought leaders who deliver inspiring keynote presentations, in-depth tutorials, and a wide range of conference classes.
