You are about to discover….

- The Real world Impact of Retrospectives
- The Zorro Circles of Retrospectives
- Retrospective Techniques

The real world Impact of .....Retrospectives

The Agile Manifesto Values

Individuals and interactions over process and tools	**Working software** over comprehensive documentation	**Customer collaboration** over contract negotiation	**Responding to change** over following a plan

The Principles

"Welcome changing requirements, even late in development. Agile processes harness change for the customer's competitive advantage."

"At regular intervals, the team reflects on how to become more effective, then tunes and adjusts its behavior accordingly."

A Few Real World Instances…
